Ask About Our 40-Year Finish Warranty On SMP Finishes!

**SILICONIZED MODIFIED
POLYESTER (SMP) COLORS
CONTINUOUSLY IN STOCK!**

valspar

Weather XL™ Benefits:

- Innovative reformulation makes it easier to apply and even more weather resistant.
- Stronger color retention with the best resistance yet to chalking and fading
- Enhanced scratch resistance
- A range of other improvements, including improved line application, faster line speeds, quicker curing and less edge blistering (depending on application conditions)

Typical Uses for SMP:

Metal roofing, panels, architectural trim, roof flashings and other architectural applications.

Availability:

Available in 40- and 48-inch coils and sheets.

Contact your local Sheffield Metals Representative for more information on SMP Finishes!

The 26GA SMP colors shown are matched as accurately as possible, but may vary slightly from finished product. Please contact your representative for more information.
